

ANNOUNCING: THE SCHOOL CONNECTION ONLINE! 2004-2005 The DPA Online www.dpa.xtn.net

What is School Connection?

It is a program administered by The Daily Post-Athenian's Online and InFOline divisions. With this program, teachers in the McMinn and Meigs County areas can communicate with parents on a daily or weekly basis, either by using our InFOline call-in system (745-3100), or by updating their School Connection Web page on The DPA's Web site, www.dpa.xtn.net

What is the School Connection Online?

Participating teachers have been given their own personal page within The DPA's Web site. When teachers post updates on their pages, that information is immediately available to the viewer. Examples of what teachers might include in their messages are: Important homework assignments, dates for tests, field trip schedules, updates on when grade cards are coming out, special class events, and much more.

How do I access my child's teacher's site? It's EASY!

Step 1: Log onto The DPA Online, www.dpa.xtn.net

Step 2: Click on the School Connection Online button on the right side of the page.

Step 3: Scroll down and find your child's school.

Step 4: Above the name of the school, you'll see an online button, click on this.

Step 5: Click on the name of your child's teacher.

If you click on a teacher and they haven't posted anything yet, please be patient...their first post will appear soon.
