

better

better facility...*Best Care!*

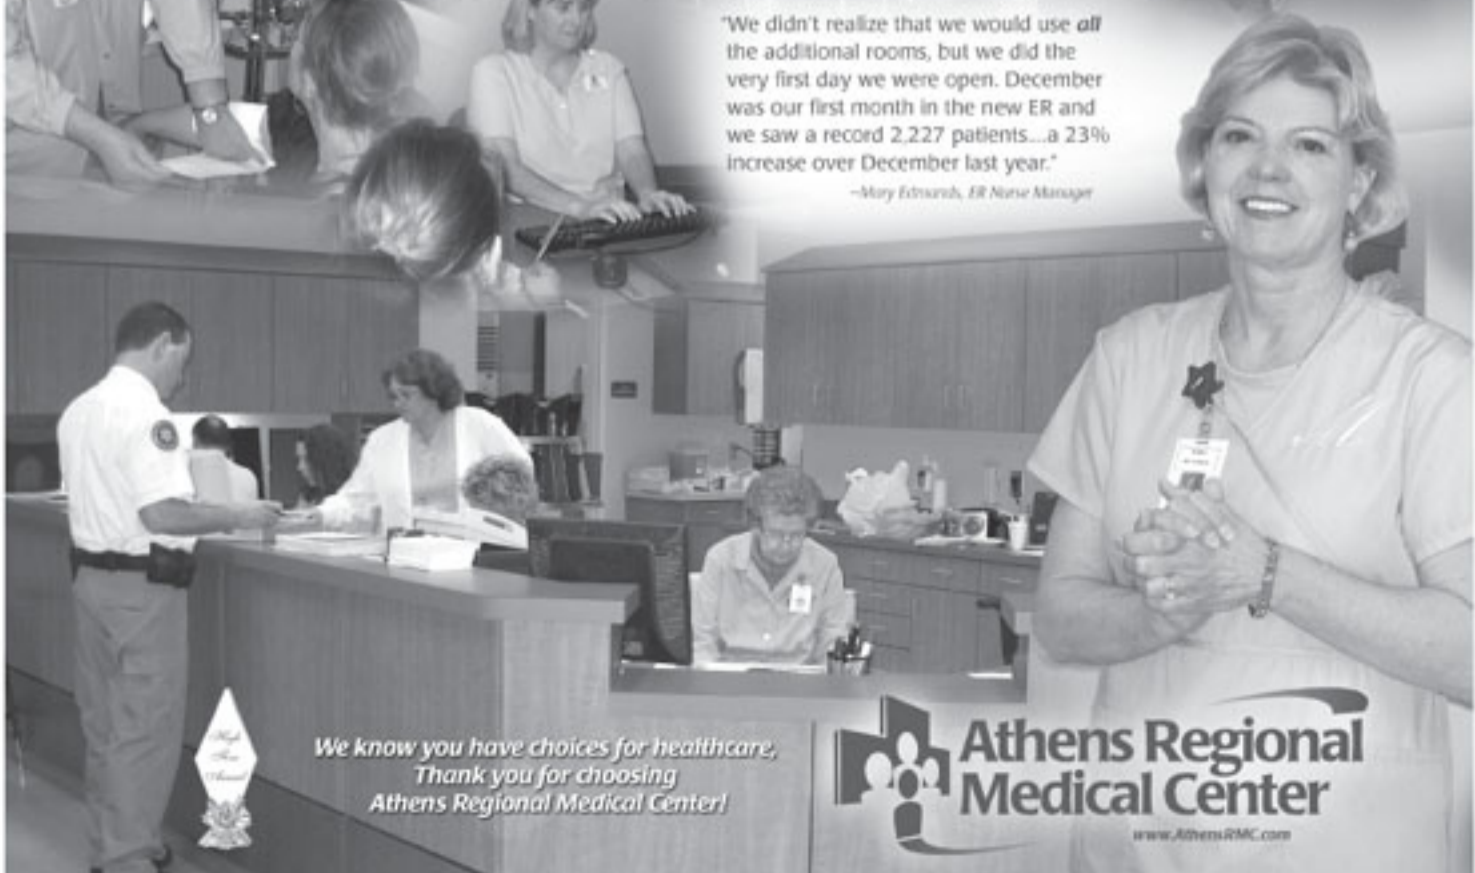

- We now have 14 Emergency Treatment Rooms instead of 8 so your wait in the lobby is shorter.
- Every ER room is equipped with state-of-the-art monitoring equipment.
- ER Lobby and Registration are now for emergency patients only.
- We can now accommodate the emergency medical needs of the people in our community.

"We didn't realize that we would use **all** the additional rooms, but we did the very first day we were open. December was our first month in the new ER and we saw a record 2,227 patients...a 23% increase over December last year."

—Mary Edscomb, ER Nurse Manager

*We know you have choices for healthcare.
Thank you for choosing
Athens Regional Medical Center!*
